

IMPLEMENTATION OF NDMA GUIDELINES

Annexure -1

Snapshot on the number of deaths and damage to school infrastructure in Disaster – Global and National

The school is more than 36 years old. Much wear and tear are noticed in different parts of school building due to passage of time. The sponsoring agency have been intimated about the same for repair but till date no major repair has been undertaken. Only minor repairing works been attended by the project. However, the project issues safety certificate of the school building every year. The fact remains the same that the school building needs urgent repairing for safety of students and staff.

Annexure - II

1. Fire safety measures are installed in the school.
2. Mock drill for students and staff member are done by BVFCL, Namrup
3. School building specification : Project building
4. Clearance & certificate: Safety certificate issued by BVFCL for the year 2018-19.
